DataPower Developer

Description

We are looking for an experienced Senior IBM DataPower APIC Developer to design, develop, and manage secure, scalable APIs using IBM DataPower and API Connect. You will work on API design, integration, security, and optimization, collaborating with teams to meet business needs.

Responsibilities

Design and implement APIs using IBM DataPower and API Connect.
Manage API lifecycle, deployment, and monitoring.
Implement security measures (OAuth, JWT, etc.) for APIs.
Optimize API performance and scalability.
Collaborate with cross-functional teams and provide technical leadership.

Qualifications

5+ years of experience with API development with IBM DataPower and API Connect.
Expertise in RESTful APIs, SOAP, XML, JSON, and XSLT.
Strong knowledge of API security and deployment.
Familiarity with cloud environments (AWS, Azure) and version control tools.

Job Benefits

Comprehensive Health Insurance, Competitive Compensation, Learning and Development Opportunities, Performance Recognition, Career Growth
