SAP ABAP

Description

We are looking for an experienced SAP ABAP Consultant with expertise in PP, PM, or QM modules to support enterprise SAP development and enhancement activities. The role involves developing, customizing, and optimizing SAP ABAP solutions while collaborating with cross-functional teams. This is a 6-month contract position based in Bengaluru with a hybrid work model.

Responsibilities

- Design, develop, and maintain SAP ABAP programs and enhancements.
- Develop custom reports, interfaces, conversions, forms, and workflows.
- Work on PP, PM, or QM module-specific developments.
- Develop and enhance ALE/IDOCs, BAPIs, RFCs, BADIs, User Exits, and Enhancements.
- Create and maintain SmartForms, SAP Scripts, and ALV Reports.
- Perform ABAP OO programming and performance tuning.
- Develop and support SAP interfaces with external systems.
- Collaborate with functional consultants to understand business requirements and deliver technical solutions.
- Troubleshoot and resolve SAP ABAP issues while ensuring system performance and quality.

Qualifications

Graduate and 5+ years of relevant SAP ABAP experience.
